PREMIUM ALUMINIUM  
STRETCHED CANVARS BY  
ALESANDRO**

**“There are two possibilities: one you may achieve great success in a job you despise only to lose it all the next day. Two you could pursue your passion from the start as there is no guarantee of a surefire path.”**

**My philosophy is to prioritise simplicity and dedicate myself to hard work.**

Although he never attended business school Alesandro successfully manages one of the top art supplies stores in Australia and is expanding into manufacturing and distributing for international markets. Perhaps his success lies in his approach of treating his business as an artistic masterpiece.

“For me, running a business is almost like painting – it’s always one thing on top of the other; I need to add another flower here, another layer of paint there. It is a work of art, and it’s constantly evolving.”
