**NOT MASS-PRODUCED SHEETS,
BUT CAREFULLY CRAFTED
CANVASES.**

Built with the mark of responsible
forestry by makers who dare to craft
thoughtfully and innovate sustainably-
every day, for artists.

PREMIUM CANVASES AND EASELS

PRODUCT CATALOG 26/27

60 SECONDS BRAND STORY.

Canvars was born to dare any artist to create.

We built Canvars by listening first. We spoke with artists, asked what they actually need, and shaped every detail around those answers. That's why our canvases come in three distinct profiles, designed to fit different styles, formats, and painting habits-because one perfect canvas doesn't look the same for everyone.

Every piece is crafted by true craftsmen-by hand, with patience, precision, and respect for the tradition of painting.

Canvars stands for sustainable, responsible making.

We use only FSC™ (FSC™ C150822) certified wood from responsibly harvested forests, so creating art also supports the future of nature.

Our ready-made canvases start with carefully selected Italian medium-grain cotton or smooth-grain linen, densely woven and primed with acid-free gesso for a surface that welcomes acrylics, oils, gouache, or mixed media.

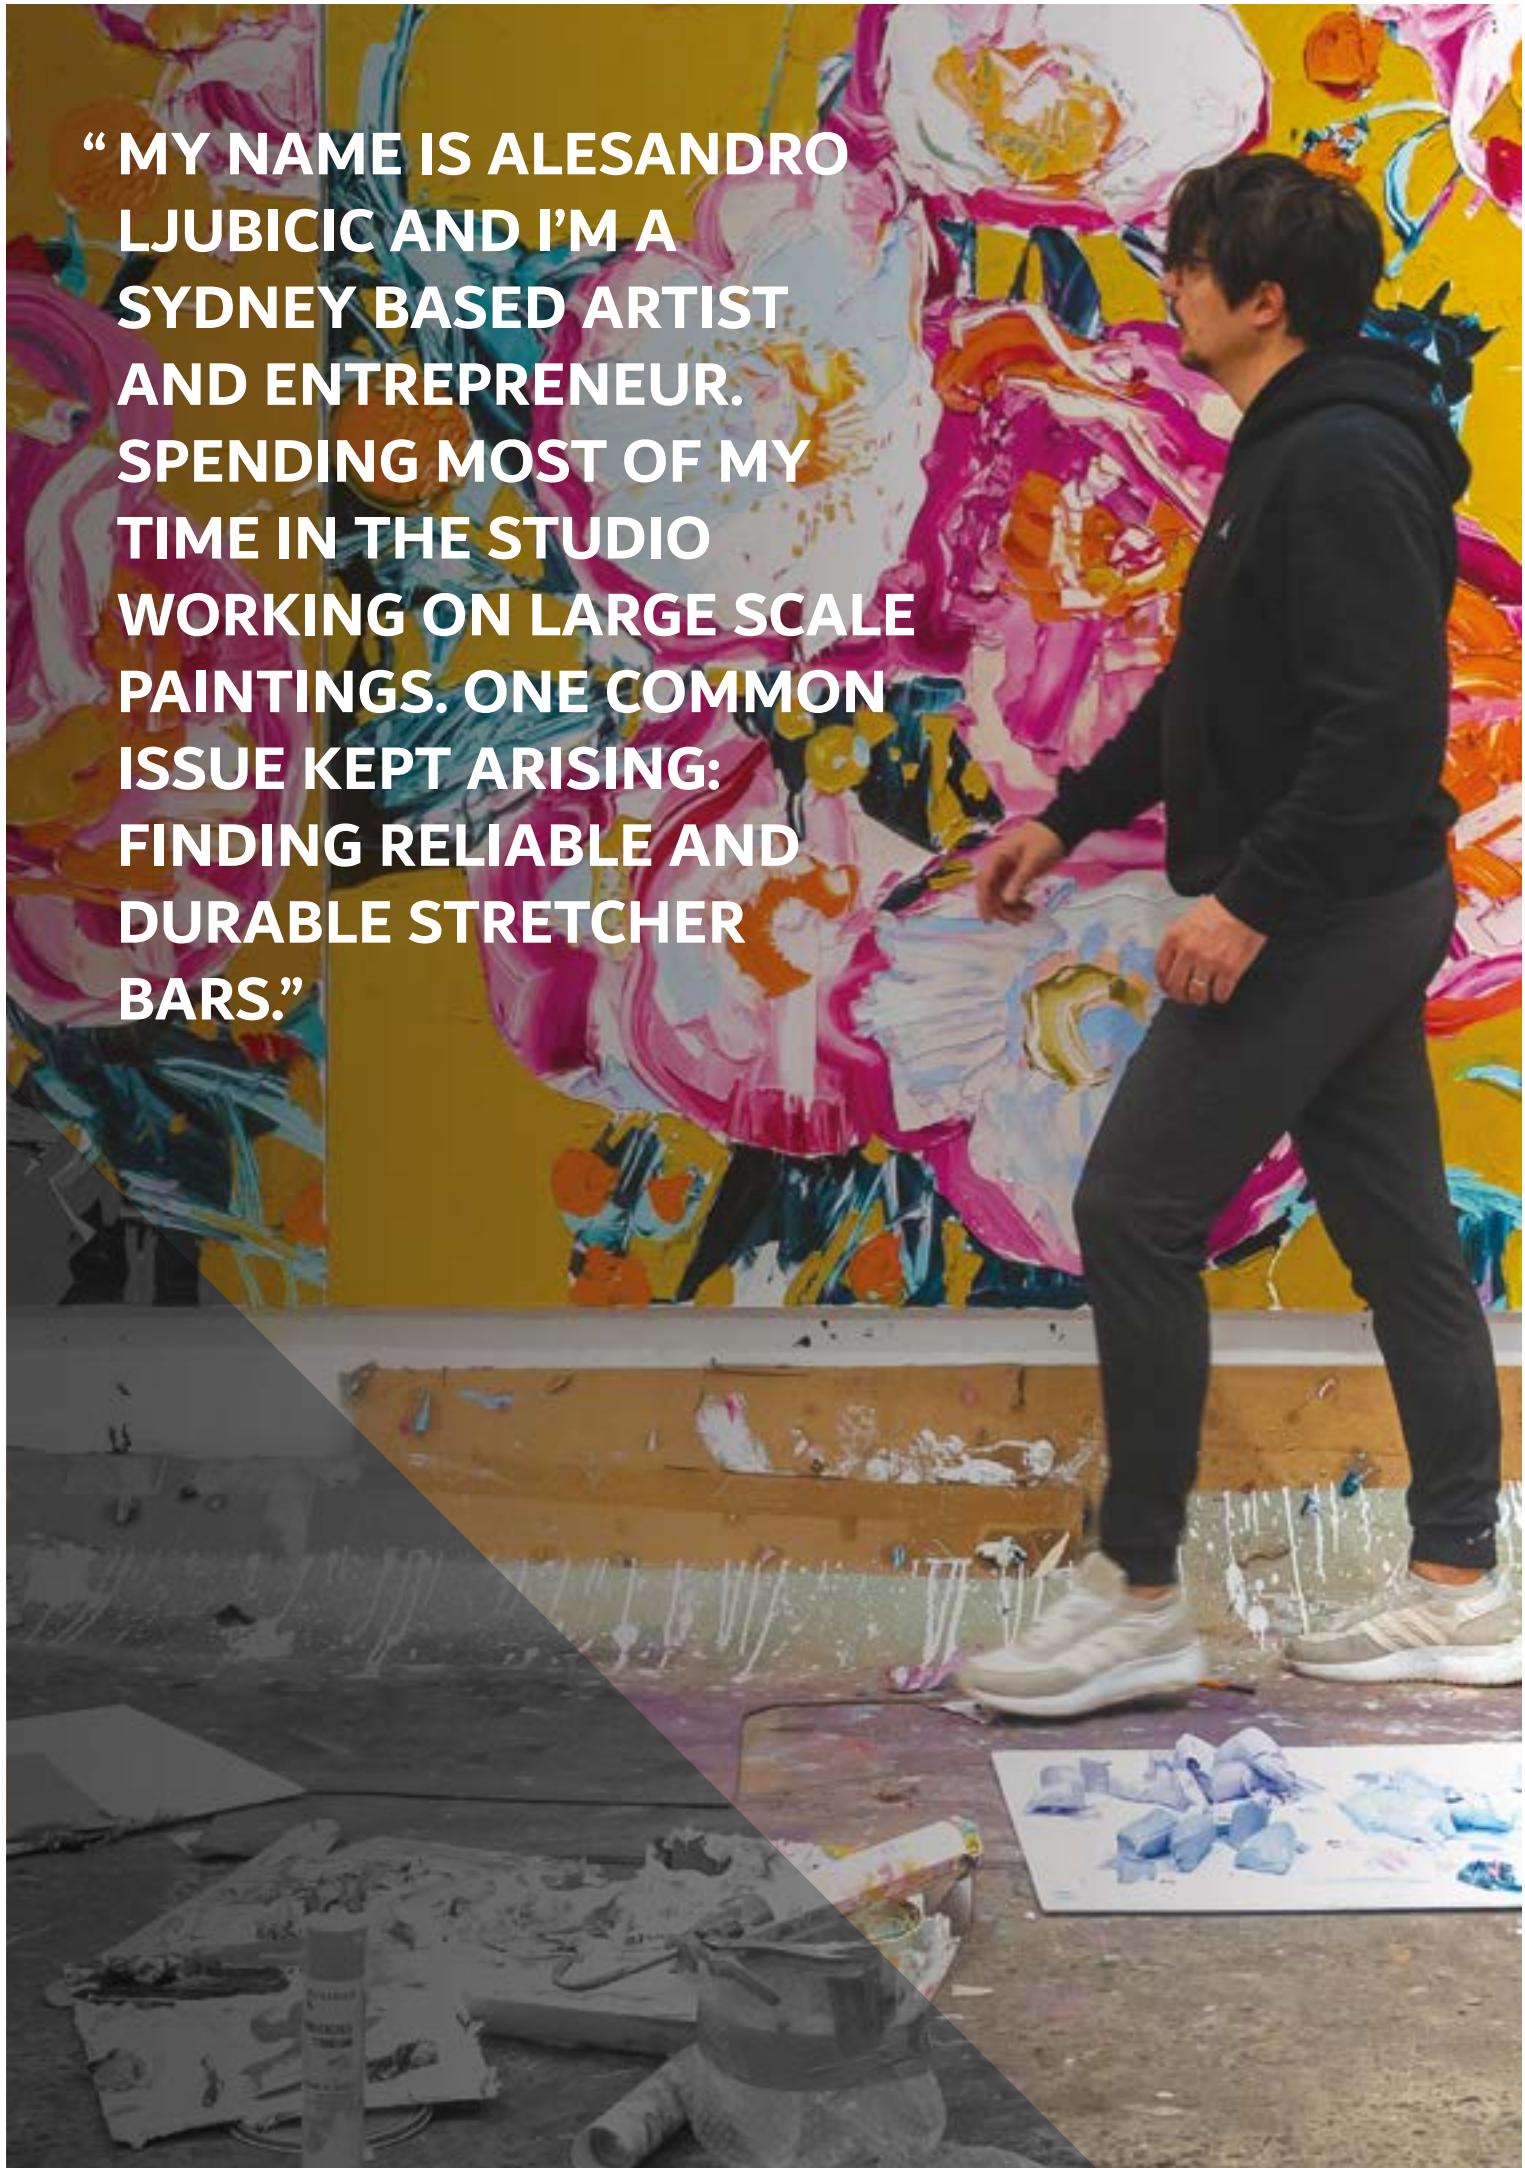

Each canvas is hand-stretched over warp-resistant fir wood stretchers, chosen free of knots and cracks, and reinforced on larger formats for lasting stability.

Fueling that same spirit, we teamed up with Australian artist Alesandro-an energy match to our own-to co-create a premium line of aluminium-stretched canvases, complete with his signature self-locking wedges for fine-tuning and re-tightening whenever you need it.

And we're not afraid to be new, bold, innovative in production, and loud in the way we show up.

**MADE WITH THE ARTIST IN MIND - SO YOU CAN DARE MORE,
CREATE MORE, AND PAINT WITHOUT LIMITS.**

“MY NAME IS ALESANDRO LJUBICIC AND I'M A SYDNEY BASED ARTIST AND ENTREPRENEUR. SPENDING MOST OF MY TIME IN THE STUDIO WORKING ON LARGE SCALE PAINTINGS. ONE COMMON ISSUE KEPT ARISING: FINDING RELIABLE AND DURABLE STRETCHER BARS.”

AUSTRALIANMADE ALUMINIUMSTRETCHERS

CANVARS.net

PRODUCT CATALOG 26/27

I WAS
DETERMINED
TO FIND
A SOLUTION.

“

I teamed with a good friend of mine and a talented artist along with the leading australian designer and we embarked on a mission to create a stretcher bar, a woodless stretcher that has the ability to remain straight and unaffected by moisture or temperature changes, whilst the quick assembly allows the artist to spend more time in the studio. We created aluminium stretchers that stay sturdy and reliable ensuring that the artwork remains supported every single time.

PRODUCT CATALOG 26/27

Ready-made canvases designed for

GRAND MAESTROS.

GALLERY/MUSEUM PROFILE - 32MM

Each piece of wood is meticulously chosen to be free of knots and cracks, ensuring a warp-resistant frame and carefully treated by hand and assembled into a canvas frame with perfectly matched components.

WHY IT MATTERS?

Prevents sagging/breakdown later.

Only European high quality fir wood from responsibly harvested trees is used. Crafted from carefully selected Italian medium-grain heavyweight cotton, multiply primed with acid-free gesso for controlled and less paint absorbency.

GRAND MAESTRO WON'T 'DRINK' PAINT,
but will keep colour intensity.

Handstretched with mastery, tightly wrapped without the risk of tearing at the corners.

Larger pieces from 60cm x 80cm feature a cross brace or horizontal bar for added support.

For canvases over 300mm x 400mm, Alesandro resin self-locking wedges are included for fine-tuning, allowing artists to further tighten the surface as needed.

Suitable for all painting techniques.

GRAND MAESTRO is built like a professional tool, not mass-produced sheet.
It's a custom made canvas at a lower price.

If an artist intends to take time and create a beautiful painting to sell to a collector, he's going to want this high-quality canvas.

THE SIZE MATTERS. THICKNESS, TOO.
